

How we use AI at Langdale CE Primary School

Introduction

Generative Artificial Intelligence (AI) refers to computer programmes that can create content such as text, images, or ideas based on the information they have learned. At Langdale CE Primary School, we recognise the potential benefits AI offers to pupils, staff, and leaders. It can support personalised learning, help staff with planning and administration, and assist leaders in making informed decisions. We are committed to using AI responsibly to enhance education while ensuring safety, security, and fairness.

Evaluation Process

Before using any AI tools, our school carefully evaluates each one to make sure they are safe, secure, and appropriate for their intended purpose. This helps us protect pupil data, maintain privacy, and ensure that the tools support our educational goals effectively.

Current Tools and Usage

At present, AI use at Langdale CE Primary School is exploratory and limited to staff members. The specific AI tools in use include:

- **ChatGPT:** Used by staff to support planning, generate ideas, and assist with administrative tasks, improving efficiency.
- **Gemini:** Employed to explore new ways to enhance teaching resources and streamline workflows.

- **SLT AI:** Utilised by senior leaders to analyse data and support decision-making processes.

These tools help our staff work smarter and focus more time on delivering high-quality teaching and support to our pupils.

Reassurance and Non-Usage

We have adopted a clear policy on AI use and are actively working to ensure all staff understand when and where AI is appropriate. Importantly, AI is **not** used for:

- Direct assessment or marking of pupil work, to ensure fairness and accuracy.
- Replacing human judgement in teaching or safeguarding decisions.
- Collecting pupil data without explicit consent and strict data protection measures.

This cautious approach ensures AI is a helpful tool rather than a replacement for human interaction and professional expertise.

Contact Information

If you have any questions, comments, or concerns about our use of AI, please do not hesitate to contact Langdale CE Primary School. We are happy to provide further information and discuss how we use AI responsibly to support our school community.
